

HAFSAH HAQ

Web Development Intern Candidate • BS Computer Science, IBA Karachi
hafsa.haq@gmail.com | 03353821029 | Hafsa Haq | LinkedIn | Karachi, Pakistan

PROFILE

Computer Science student at the Institute of Business Administration (IBA), Karachi, currently freelancing as a data analyst and web developer with Redline Intelligence via Upwork. Started in Power BI, Excel, and Google Sheets dashboarding, and is now building frontend skills in React while learning backend development with Python and Fast API. Seeking a Web Development Internship.

TECHNICAL SKILLS

Frontend: React, JavaScript (ES6+), Typescript, Tailwind, HTML5, CSS3, Vite, Framer Motion

Backend: Python, Node.js, Fast API

Tools & Other: Git/GitHub, REST APIs, Power BI, Excel/VBA, Google Sheets & Apps Script

Core CS: Object-Oriented Programming (C++), Data Structures & Algorithms, Discrete Mathematics

FEATURED PROJECTS

Oak & Stream, Café Website (Frontend Sample) | Redline Intelligence, Client Sample 2026

- Built a responsive frontend using React, Vite, and Framer Motion with a custom cream/green/gold visual identity, as a sample piece demonstrating front-end web development capability.
- Implemented smooth page transitions and micro-animations to showcase a premium, brand-consistent user experience.

Théâtre Live, Bakery & Café Website (Concept Design) | Personal Portfolio Project 2026

- Designed a website concept for a Pakistani bakery & café brand with no prior web presence, built around a theatrical "playbill" visual concept.
- Developed a custom navy, cream, orange, and pink palette to translate the brand's theatrical identity into a distinctive, cohesive web layout.

FREELANCE & CLIENT EXPERIENCE

Freelance Data & Web Developer | Redline Intelligence (via Upwork) 2025 - Present

- Work as part of a freelance team sourced through Upwork, delivering client projects assigned by the company.
- Delivered Power BI, Excel, and Google Sheets dashboards for clients, including a Grant Tracker dashboard, succession-planning analytics for an Oil & Gas company, and operations dashboards for an Arizona airport client.
- Currently transitioning into web development within the role; produced front-end sample and concept projects (Oak & Stream, Théâtre Live) to demonstrate front-end capability.
